Close collaboration with
local universities
Innovation Lab for research
purposes

Building on the success of our smart-shore model, which took the lead over other IT near-shore and off-shore solutions, we took a step forward towards client's and employees' satisfaction. **Future Gateway is our newest building in Bari, Italy**, home of the Fincons Group Delivery Center: a structured ecosystem with start-up hubs, new R&D spaces, and multi-purpose settings, a stone's throw from the airport.

New building, same mission

Our Delivery Center has proven to be an excellence hub for international, custom-made system integration and application management. A dynamic ecosystem ready to welcome over **one thousand IT professionals to provide innovative digital solutions** to our clients and partners around the world. Future Gateway is the strategic answer to the ever-evolving and demanding IT marketplace.

People first

Ranked among **Best Employers 2021 and 2022** from Corriere della Sera, we will live up to expectations. That's why our new building is designed to be a **hub for people**, in which every detail is super functional. State-of-the-art desks and a green, uplifting environment are just some of its features, combined with collaboration rooms, informal meeting spaces, creative settings and relax areas. On top of that, everything is designed to provide the perfect balance between work and personal life of our people.

Green revolution

Fincons Group is strongly **committed to sustainability**. Our new building meets all the latest requirements when it comes to ecological solutions: starting from building materials which support short chain, to the highest energy efficiency class, renewable energy sources and proximity to public transportations. It's part of our contribution towards a healthier world for our people, our customers and our communities.

At a glance
